1: Ethical Research ✓ *(Final)*

2: Evidence based practice ✓ *(Final)*

Demonstrate athletic training clinical decision making utilizing evidence based practice  [Preview Formatting]

- **Student Learning Outcome/Objective:** Yes
- **Established in Cycle:** 2012-2013
- **Active Through:** 2013-2014
- **Entry Status:** Final
- **Last Updated By:** Lori Greenwood on 12/26/2012
- **Established By:** Lori Greenwood on 12/26/2012

3: Interpersonal communication ✓ *(Final)*
Measures & Findings
(Numbers inside parentheses show related Outcomes/Objectives.) Toggle triangles to add/edit Target, Findings, or Action Plan.

1: Ethical Research (O:1) (Final)
2: Evidence Based practice (O:2) (Final)

In their last semester of the program, students will submit treatment care plans for injury scenarios that are supported by evidence based research. They will be evaluated using a grading rubric.

Source of Evidence: Written Assign. - Written assignment
Established in Cycle: 2012-2013
Active Through: 2013-2014
Entry Status: Lori Greenwood on 12/26/2012
Last Updated by Lori Greenwood on 12/26/2012

Targets and Findings:

2: Evidence based practice

⚠️ Target (Final) [Preview Formatting]
80% of students will receive an 80% or above on the treatment care plans.
Established in Cycle: 2012-2013
Active Through: 2013-2014
Last Updated by Lori Greenwood on 12/26/2012 Established by Lori Greenwood on 12/26/2012

Findings:

2013-2014 ☑ Assessment Summary / Findings (Final)
Target: Met
90% of students (9 out of 10) received 90% or above on the treatment care plans and 100% of students (N=10) received 80% or above. [Preview Formatting]
Established by Lori Greenwood on 7/7/2014

2012-2013 ☑ Assessment Summary / Findings
Target: Met
87.5% of students (7 out of 8) received 90% or above on the students received 80% or above. [Preview Formatting]
Established by Lori Greenwood on 5/23/2013

A good finding. Narrative is succinct. If a target was not met or more information is needed, it would make sense to disaggregate information by rubric content areas.

3: Interpersonal communication (O:3) (Final)
Evidence Based Practice

Description: Although the findings for the measurement of this objective showed that the target had been met, an additional experience has been added to the curriculum to assist students in this area. Second year MSAT students will be involved in the HLKN Dance Major Injury Clinic during their last year in the program. Students will evaluate, clinically diagnose, make intervention recommendations and refer when necessary. This additional experience should enhance student knowledge and skill in using evidence based practice.  

Projected Completion Date: 5/4/2015
Responsible Party: Dr. Lori Greenwood
Registered in Cycle: 2013-2014
Active Through: Keep Active
Include on Action Plan Tracking page: Yes
Include in Reports: Yes
Entry Status: Final
